Materials

Type of wood: larch beams, ash pins
 Pre-drilled beams 1,8 m (9 x 9 cm)
 25 mm pins
 Filter cloth to lay at the base
 Options:
 HDPE polyethylene seats
 Waterproof plate cover 18 mm with plastic handles
 Net cover in HDPE polyethylene

Product Description

Traditional sandbox with the shape of a rectangular. The sandbox consists out of pre-drilled beams (9 x 9 cm) which are connected to each other by means of ash pins. A filter cloth is included. It is possible to extend the sandbox with 4 HDPE polyethylene seats in the corners (Z1836). Possibly, the sandbox can be covered with waterproof plate covers 18 mm with plastic handles (D1836) or a net cover in HDPE polyethylene (N1836). Due to weather conditions, deformation of the cover plates may occur, however this can be solved by turning the plate.
